What's New – September 2002

Volume 10 Issue 3

FOR THE MEMBERS

TO THE MEMBERS

BY THE MEMBERS

ECES members, it's been an incredible summer of fun activities including the highly successful Free Summer Fun BBQ and the Annual ECES Golf Tournament. To improve access and member services, *our website has moved* from www.eces.net to www.eces.cc. The website was launched just this August so stay tuned for new services such as a resume bank, multi-discipline links, job search tips and much, much more! Most of all, our priority is to ensure the new website is *consistently up to date with news about the society!* If you have suggestions for the website, feel free to email me at wlieu@ualberta.net. As always, the executives at the ECES look forward to serving our members.

With the fall season fast approaching, September marks the return of our monthly technical meetings starting on September 9th with a presentation on Managing Environmental Projects in Eastern Europe by Nick Tywoniuk, P.Eng. As well, with 2002 coming to a close in the next few months, the ECES is seeking nominations for the 2003 ECES executive positions. Please email our immediate past president, Daniel Woo at dan.woo@ec.gc.ca.

Congratulations to Jason Yip for winning the 2002 ECES scholarship, which is awarded to a student entering the second year of any engineering discipline and is based on scholastic achievement.

1.0 Important Notices

A big thank-you and kudos to our Webmaster Derek Yip for his excellent work with launching the new website. If you have suggestions or ideas you think would make the website more resourceful, please contact an ECES executive or our Webmaster via the website. Help us make the website work for you!
